The Conference of Churches engages transformational leaders to work together for a healthy and just community.

The Conference of Churches (TCC), founded in 1900, is a faith-based, non-profit organization that reaches tens of thousands people each year. Our mission is to engage transformational leaders to work together for a healthy and just community. Our Vision statement is “A Healthy and Just Community for All.”

Through our three areas of focus, we Collaborate with partners, Educate and identify transformational leaders, and use our Cause-Communication to aid leaders on how to better get their message out to the public using social media, and radio. Some of our Consultant initiatives include: CityHarvest, Health Equity Strategic Leadership, Open Space Technology, Public Affairs Broadcasts, Social Media Consulting, and the FaithWorks Institute.
